SINCE 1989  
STASERO  
THE FINE ART OF FLAVOR

Syrups for coffee and teas.

With a commitment of minimising our global carbon footprint, **Trenton International** has contributed to the **10 Thousand Trees** initiative to make paper a sustainable resource. In doing so, **10 Thousand Trees** will plant trees this year on our behalf, manage them to maturity, harvest them to be used as environmentally friendly paper, and then reinvest the profits from that sale back into more trees. By increasing the supply of Australian trees we are contributing to a program that ensures the safety of old growth forests and contributes to a sustainable environment.

INTERNATIONAL

Welcome to the latest catalogue from Trenton International Hotel and Restaurant Supplies. We are committed to bringing you the best in cutlery, crockery, kitchenware, bar, counter and related table service items.

In this, our latest edition, we know you will find the same high standard of products and comprehensive range that Trenton are renowned for. We remain a locally, family owned and operated, dynamic company that continues to innovate and meet the needs of our customers.

You will see some exciting new developments in this catalogue including exclusive distribution in Australia of Churchill China Dining Out, a new range of Modern Dining ceramics and the launch of RG Ryner Glass.

All our new brands and products highlight our ongoing efforts to bring you a world class range.

We thank you for supporting Trenton and look forward to working with you in the years ahead.

Enjoy!

Thomas Reiner  
Managing Director

# ZUMA

Zuma is produced using once fired technology, reducing the impact of the manufacture on our environment. A fully vitrified body and rolled edges, produces a strong durable and chip resistant masterpiece.

In a range of exciting reactive colours featuring variance in colour and glaze, every piece appears to be hand thrown making each piece have its unique DNA, which enables a creative canvas for any chef.

All colours can be introduced to existing tabletop, creating a harmonious blend of accent pieces. Introducing warmth with an innovative style, engaging but different, a natural choice for your tableware.

CHURCHILL®

super vitrified

Churchill prides itself on delivering innovative, high performance products to an ever changing, global market place. With over 200 years of innovation, passion and expertise makes Churchill the natural partner for providing tabletop solutions. Within the hospitality sector, the choice of tableware must meet the highest standards for presentation, practicality and performance. The Churchill brand has achieved global recognition and is a reputable supplier of superior quality ceramics. Respected for service excellence, product quality, environmental responsibilities and product innovation.

**SUPERIOR GLAZE FINISH**

Protected by ecoglaze, a high performance glaze that enhances product performance, prolonging the life of the product, improving stain and metal mark resistance and durability. Excellent stability prevents thermal shock and crazing. **ecoglaze**

**UP TO 20% LIGHTER**

Refined thinner profiles dramatically reduce the weight of each item. Easy to handle and excellent stackability reduces storage space back of house.

**IMPROVED FACE PROFILE**

A defined rim edge to improve food presentation.

**DISHWASHER AND MICROWAVE SAFE**

**FULLY GLAZED BASE ON ALL FLATWARE**

Prevents damage when stacking.

**STRONG + STREAMLINED**

Lightweight, attractive product with a rolled edge that is more than capable in any back of house environment.

**MADE IN ENGLAND**

TERMS AND CONDITIONS APPLY

**NEW**  
**PROFILE**

Profile flatware has an enhanced face profile with a defined rim to showcase the food at its very best. The slim and defined edge ensures excellent durability. The plates and rimmed bowls are all streamlined to be 20% lighter than the existing Classic plates making them an easy to handle solution, with no compromise on performance.

# Fashion for Food

## PORCELAIN BODY

Aesthetic appeal, brilliant white porcelain refined and lightweight. On average 20% lighter than key competitors.

## DURABILITY & STRENGTH

A hint of a rolled edge for excellent durability and chip resistance, whilst still maintaining aesthetic appeal.

## MICROWAVE & DISHWASHER SAFE

High thermal shock and tested to withstand 2000 dishwasher cycles.

## GLAZE FINISH

Resistant to metal-marking.

ART de CUISINE®

## STAND OUT FROM THE CROWD WITH OUR EXTENSIVE PORCELAIN RANGE

An exciting tabletop personality that delivers style, individuality and great value to professional caterers. Tableware that bends to fit with your needs. Art de Cuisine offers answers without compromise.

### MENU

A contemporary collection of stylish yet functional white porcelain. Plates of all shapes and sizes, quirky bowls, a new slant on beverages and it doesn't stop there...

Our red hot range of cook-and-serve professional porcelain pans from "Sizzle" to our on trend "Bitesize" and "Miniatures" bowls, plates and wooden platters.

#### WOOD

100% renewable resource, multi-functional, and food safe – EN 71. Suitable for direct contact with food, however ensure appropriate cleaning and aftercare.

#### QUALITY WOOD

Resistant to warping and cracking and double sided for flexibility.

#### HEAT RESISTANT WOOD

Suitable for carrying hot ceramic pieces removed directly from the oven.

## HOW TO CARE FOR THE COOKWARE

### A word of warning

As with all clay, pieces are susceptible to thermal shock. Accordingly, please observe the following points.

If taking 'La Tapa' from fridge, please let stand until it reaches room temperature before exposing to any form of heat.

'La Tapa' should be placed in cold oven allowing both vessel and oven to reach its required temperature at the same time. Once removed from oven, place vessel on trivet or silicon mat - thus avoiding direct contact with cool surface.

### Hand Wash Only

After use, fill the pot with warm soapy water. Make sure to avoid overly "fragrant" detergents as perfumes can taint the clay. If heavily soiled, soak in mild detergent, if required, use Teflon scrubber. Don't use metal or highly abrasive scouring pads or powders. The use of the dishwasher is not recommended.

### Colour Changes

Due to the natural (not chemical) glaze, your pot may change colour with use. This is normal and is considered part of the natural character of these handmade pots.

## HOW TO CURE YOUR 'LA TAPA' POT

Fill three-quarters of uncovered vessel with warm water, place in cool oven until reaching 200°C for 30 minutes. This process will assist with curing your cookware. As with all clay cookware, regular use will fully season your vessel. If you find your piece is still porous, bring FULL CREAM milk to the boil... then allow to stand for several minutes.

## ORIGINS

In the Magdalena River, central Colombia, the people from a village called La Chamba continue to carry on an artisanal tradition that spans over 700 years. Using the mineral-rich clay from the area, these people make 'La Tapa' cookware - used and loved by Colombians, gourmet cooks and celebrity chefs around the globe.

Each piece is hand shaped and moulded. Elegant, contemporary, easy to use, 'La Tapa' is Colombia's gift to the world's most demanding cooks. These artisan pieces can be used (after curing... see instructions overleaf) on gas stove top, in the oven and microwave. If using 'La Tapa' on an electric stove top, a heat diffuser is recommended. Items within this range include griddle pans, roasters, baking dishes, fully complemented with small unique tapas bowls.

From oven to table 'La Tapa' introduces highly functional pieces of 'Art' ... suitable for those who embrace and appreciate the merits of cooking and presenting in organic, hand crafted vessels.

## TOXIN-FREE – 100% ORGANIC FROM MOTHER NATURE

This cookware is produced free of toxins, without chemical glazes and lead clay. The burnished black hue comes from painstaking hand polishing using river rocks. This is truly eco-friendly cookware - a contemporary piece of art from earth to table. 'La Tapa' is Cookware made over a period of 700 years, handed down from generation to generation / Mother to Daughter – Father to Son!

TAPAS

The word 'tapas' is derived from the Spanish verb tapar, 'to cover'. It is the name of a wide variety of appetizers, or snacks, in Spanish cuisine.

## A GLASS THAT ALLOWS THE 'WINE TO STAR'

In our quest to develop high performance glassware we drew inspiration from our partnership with wine artisans. We are proud to introduce "RG" Ryner Glass.

Ryner Glass technology ensures brilliance and commitment to quality.

The glass detail influences the see - smell - taste experience of wine drinking.

To taste the nuances of different wines and to experience the pleasure of recognizing the difference between a good wine and a very good wine is a combination of many details.

All our glasses are produced to a high standard of a quality, design, durability and are dishwasher safe.

In addition to wide variety of suites our glasses are sturdy, yet fine, offering a glass for every taste and occasion.

## DELUXE INDUCTION CHAFING DISH

This simple silhouette chafing dish is an evolved version of the patented hydraulic hinge which is applied to all models in the series, these provide smooth opening and silent closing of the lid.

Heavy gauge in shiny stainless steel defines it's quality and durability, it can be used directly on induction or use with the matching stand for electric or chafer fuel.

**NEW**

**PRINCE**

18/10 Stainless steel body with capsuled bottom compatible for induction and chafer fuel. EU1935/2004 food safe standard conformed.

## DELUXE INDUCTION CHAFING DISH

Reflects a perfect blend of elegant design and practical function. The dish can be used alone for an easy set up or with a matching stand for a more classic environment. Commonly used heating sources such as induction, electric & chafer fuel are all suitable.

The patented hinge mechanism assures smooth, gentle, silent opening and closing of the lid.

### LID POSITION

- opens up to maximum 90°
- stays open at approx. 65°
- initiate to close by pressing down gently
- lid falls & closes automatically & silently

### NOISE STOPPER

- eases noise of closing lid

### WATER RETURN SYSTEM

- condensation flows back to water pan instead of food

### CAPSULED BOTTOM

- multi layer bottom for fast & even heating
- compatible for induction, chafer fuel and electric heater

EU1935/2004 FOOD SAFE  
STANDARD CONFORMED

### DETACHABLE LID

- for quick & easy cleaning

### HYDRAULIC HINGE

- for smooth opening & closing of lid

### ADJUSTABLE LEVEL SUPPORT

- for a perfectly level placement when required

### INSERT LIFTING PIN

- changing food pan easily

VIDACASA™ Buffetware keeps the food plate surface at 4°C (32°F) for up to 6 hours, without the use of external power. This innovative cooling feature assures delicate perishables like fresh seafood, Japanese raw food, cold cuts, salads and even desserts be served freshly in all hotels, restaurants and catering outlets.

VIDACASA™ BUFFETWARE IS COMPOSED OF THREE PARTS:

The use of the iThermo® Cell is easy. Simply store it in any freezer overnight or until it becomes a solid, place into the thermal base, and watch the magic cooling power!

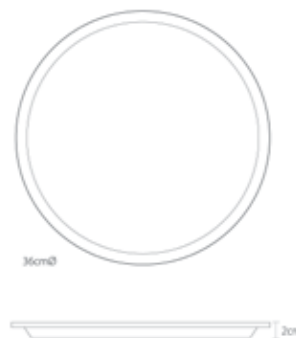

iThermo® technology absorbs cooling power during state transformation and releases cold thermal power for long hours. With the use of the iThermo® Cell, VIDACASA™ Buffetware can keep its surface at a low temperature for up to 6 hours, without using wet ice, dry ice or electricity supply.

The entire VIDACASA™ Buffetware collection is eco-friendly and food safe, while the iThermo® Cell can be reused, saving huge operation costs and providing green environment benefits to the earth.

**CHAFING  
DISH FUEL**

100% Australian Made

Non combustible and non flammable, safe food heating solution. Contains 100% diethelyene glycol, very clean burning with no unpleasant odours. Can remains cool to touch, and will not spill if tipped. The wick is braided creating a steady flame and constant heat. No restrictions on freight or storage.

2 Hour fuel is perfect for smaller buffets or boardroom functions.

4 Hour is the most popular burn time for resorts and hotels, on their buffets both inside and out.

6 Hour is a popular burn time for resorts, hotels and casinos with longer running food and beverage departments.

## SUGAR CANE SYRUPS

Stasero syrups are sourced from only the finest ingredients from around the world and then blended to perfection. This gives Stasero syrups a pure, true flavour - not artificial and not too sweet. Stasero syrups are specifically formulated for the specialty coffee industry to complement hot coffee beverages, mochas, lattes, smoothies, granitas and frozen beverages.

Designed for prolonged and heavy professional use

Exclusive NITRIUM® stainless steel blade

Colour Identification system:  
Each knife can be identified for a specific use by using the indicator on the handle. This promotes better hygiene and health for the consumer

The handle has a core of polypropylene (PP) and soft rubber coating on the outside. The special mixture of materials give greater comfort and adaptability as well as being non-hygroscopic (does not absorb liquid).

Keeping your knife's blade sharpened will help you work properly and safely and it will last much longer

Using a sharpening steel will restore dull knives back to razor sharpness

Made of a rod of hard steel-alloy with a tough synthetic handle designed for a safe grip

# Frenti

**NEW**  
SILICON  
MOULDS

Frenti Grande is a collection of 600 x 400mm silicon moulds made in Italy which are ideal for those professionals who want to make sweet and savoury creations of a high aesthetic level. Frenti Grande Silicon Moulds have been designed in order to allow a more efficient use for cooking surfaces. The

moulds are endowed with flexible, non-stick properties and a special gloss effect of the cavities. These moulds are made of 100% food safe silicone, are suitable for freezing and for cooking in convection ovens or microwave ovens at temperatures ranging from -60°C to 230°C. They use high quality liquid platinum silicone that is suitable for contact with food and completely non-toxic. This range is a collection of original moulds which has gained recognition thanks to its unique shapes. These moulds are divided into; traditional Classic Pastry Desserts, One Bite; which are ideal for finger food catering, Cakes, One Portion Dessert; which are perfect for the creation of refined and original desserts.

# Frenti **NEW** SILICON MOULDS

Manufactured in plain 100% silicon. The moulds are suitable for food contact as per international H.A.C.C.P. laws. The surface is non-stick so it is not necessary to grease it before use. The flexibility of the moulds guarantees a quick and easy removal. The moulds are easy to clean with hot water and a soft sponge. Dishwasher safe, minimum maintenance, long

durability and maximum resistance to corrosion. The resistance of the moulds to extreme temperatures from -60°C to +280°C makes them ideal for freezing or for baking. It can also be used for all preparations of cakes, chocolates, petit-fours and catering preparations.

# Flap-Rack® by Pujadas

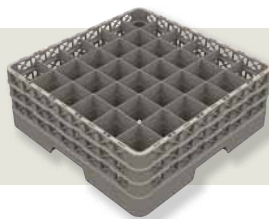

Get the best of both worlds\*: **Opened or Closed**

- System assembly and disassembly easy and safe
- Stackable with other market baskets
- Reinforced double-wall (anti-shock)
- Easy customization
- **A** Openings for maximum cleaning
- **B** Ideal for transporting and storing

The only dishwashing racks opened or closed. Produced and patent pending by Pujadas.

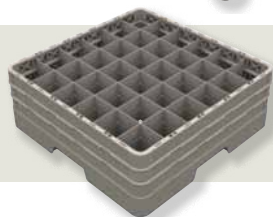

**Washing:** Higher cleaning

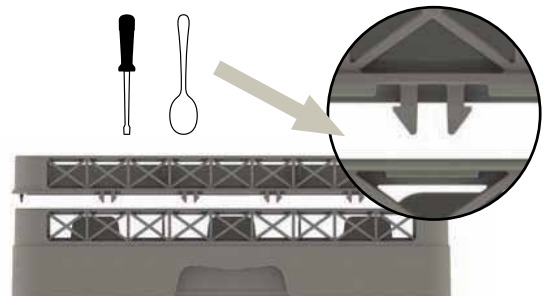

**Transport:** Higher security

**Storing:** Higher hygiene

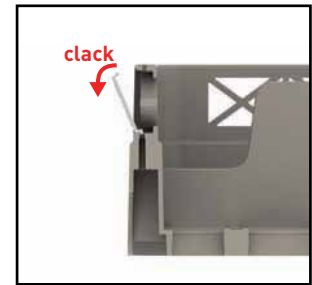

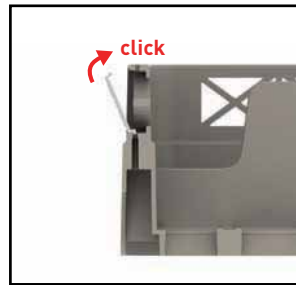

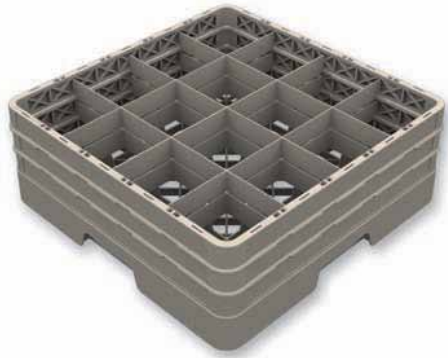

**Flap-Rack®:** easy to assemble and disassemble extenders

\* Copolymer highly resistant to chemicals and temperatures up to 95 ° C.

**Flap-Rack®:** System patented allows the walls on both bases and extenders to be open or closed easily and personalise and identify them according to the needs.

## FLAP RACK SIZE GUIDE

### Diameter

Place glass upside down over the circular chart. Whichever circle the largest diameter of the glass (either base, body or rim) fits within, will determine the compartment rack required.

### Height

Use the vertical guide to determine the appropriate number of extenders. If the height of the glass is between two extenders, select the higher extender.

## GLASS RACKS

Dimensions 500 x 500mm

### 9 COMPARTMENT GLASS RACK & EXTENDER

Maximum Glass Diameter 151mm

# CARE & MAINTENANCE / INDEX

CARE & MAINTENANCE ..... 544 - 545  
ALPHABETICAL INDEX ..... 546 - 551  
NUMERICAL INDEX ..... 552 - 560

## CARE INSTRUCTIONS FOR GLASSWARE (NON ABRASIVE)

- Always wash new glasses before use
- Use a non abrasive cleaner
- Rinse glass as soon as possible after use
- Always hold the glass by the base, not by the rim
- Avoid handling glasses in clusters
- Do not stack non stackable glasses
- Avoid twisting the base and the bowl in opposite directions whilst drying

## CARE AND INSTRUCTIONS FOR WOODEN BOARDS

- Not suitable for dishwasher, or use in oven, freezer or microwave
- Do not soak in water or wash with harsh detergents
- Store boards in a dry location at room temperature
- Do not store near heat sources or humid areas
- Do not leave in direct sunlight for long periods of time

## CARE AND INSTRUCTIONS FOR CUTLERY

Stainless steel cutlery is highly resistant to stains and corrosion as it is one of the most durable metals available. To ensure long life and to retain the lustre, the following procedures are recommended.

- Remove cutlery from the dishwasher immediately after the end of the programme.
- Wash immediately after use with a good quality detergent.
- Ensure knives are not positioned against each other; it is better to mix knives with forks and spoons. Contact between knives can cause a reaction in combination with dishwasher/detergent resulting in brown spots.
- Do not use harsh washing powder or abrasives.
- Store cutlery in dry places and completely dry before storing to prevent water stains.

There are various grades of stainless steel used in the manufacture of cutlery. The higher the nickel content the better quality the cutlery will be:

18/10 - 18% Chromium / 10% Nickel

18/8 - 18% Chromium / 8% Nickel

18/0 - 18% Chromium – no nickel content thus this grade is more prone to rust spots

## CARE AND INSTRUCTIONS FOR MELAMINE

- Do not heat food on this product
- Dishwasher safe
- Not for use in microwave or oven
- Avoid scouring with abrasive cleaning products
- Avoid using sharp knives which will scratch the surface
